**Things That Should Go Without Saying (but need to be said):**

- You and only you are responsible for your safety while riding.
- Ride within your limits and look at technical features first.
- Ride don't slide - don't braid trails or features - don't cut corners.
- Pack out your trash and check your bike for weeds and seeds.
- No trail modifications or additions are allowed.
- Recreation on these trails depends on us all being environmentally and socially responsible.

**NOTE:** Smart phones can use this GeoReferenced PDF map to show your current GPS location.
